

Why Reduce Our Plastic Use?
Do you really want this to happen
to the ocean forever?

Scientists believe that plastic is not only affecting the animals around us, but we too are being polluted. As most of us know, plastic is NOT biodegradable. As the decades go by, it turns into micro plastic. When the micro plastic gets washed into the ocean, small fish eat it who in turn are eaten by larger fish. And this repeats until our fishermen come along to catch the fish that we eat.

Do you want this plastic pollution to continue or not?

tempt pack
for just £1!

Shampoo cubes

- These cubes are made from 100% natural ingredients (vegan free)
- 64% organic.
- The cubes are also chemical free.
- The packaging is made from cardboard and it contains 27 cubes in each pack.
- Easy to use just crumble a piece off, paste it through your wet hair with a few drops of water then massage your hair and your hair will be outstanding.
- Easy to take on planes since it's a solid not a liquid.
- Full Size packs available for just £9.50
- Cubes to suit all hair types. (See order form.)

A Greener Grewelthorpe

Plastic is an enormous catastrophe that we have caused so as a community, we need to unite as one and make sure we do our bit for the planet.

All of the products in this leaflet are plastic free. You could do your bit right now and buy some of these products instead of buying the plastic version.

Do you want to end up swimming in plastic? If not, act **NOW** and buy our products before it gets too late.

SHAMPOO BARS

Shampoo bars are a great way to wash your hair!

- ✓ They are an environmentally-friendly conditioning shampoo in a natural solid bar form.
- ✓ They last as long as 4-5 plastic bottles of liquid shampoo.
- ✓ They come in a cardboard box and are 0% waste
- ✓ Palm oil free, instead made with castor oil.

Only
£2.75

Dental lace saves the world!

£4.75

Did you know?

If all the floss used was collected together, it would fill a landfill the size of a football field that is six stories high!

This dental floss is 100% silk - no plastic at all.

This is how dental floss can save the world!

Large 60m packs offers great value for money!

Metal Straws

Straws made of aluminium, stainless steel and titanium are ultra-durable and will last a lifetime making them more Eco-friendly than single-use plastic straws.

All of these straws are made from high-quality metals and have brushes available for easy cleaning.

Just £4.50 for a pack- including cleaning brush
